

## Math Colloquia

- Prof. Adriano Tomassini  
Institution: University of Parma  
Date/Time: May 6, 2010, 4:00-5:00pm  
Place: DM 409A  
Title: Cohomological decomposition of almost complex manifolds and deformations
- Prof. Min Ru  
Institution: University of Houston  
Date/Time: April 9, 2010, 3:30-4:30pm  
Place: DM 409A  
Title: Large Divisors on Projective Varieties
- Prof. Nordine Mir  
Institution: University of Rouen (France),  
Time: April 5, 2010, 3:30-4:30pm  
Place: DM 409A  
Title: Holomorphic versus algebraic equivalence for real-algebraic CR manifolds
- Prof. Tihomir Hristov  
Institution: Johns Hopkins University  
date/time: February 26, 2010, 12:30-1:30pm  
Place: CP 197  
Title: What we learned about the dynamics and statistics of ocean waves from going to sea
- Prof. Yunping Jiang  
Institution: City University of New York Queens College  
Date/Time: Feb. 19, 2010, 12:30-1:30pm  
Place: CP 197  
Title: On holomorphic extensions of dynamical zeta functions
- Prof. Vladislav Kravchenko  
Institution: Research and advanced studies center (Mexico)  
Date/Time: February 12, 2010, 12:30-1:30pm  
Place: CP197  
Title: Factorization of second order partial differential operators
- Prof. Paulo Dattori  
Institution: University of Sao Paulo (Brazil);  
Date/Time: January 28, 2010, 3:30-4:30 pm  
Place: DM409A  
Title: Semi-global solvability for a class of planar complex vector fields.
- Prof. Xinwei Yu  
Institution: University of Alberta  
Date/Time: Dec 10, 2009, 3:30 - 4:30 pm  
Place: DM 409A  
Title: On Singularity Formation of a Nonlinear Nonlocal System
